PROFILE

B.Tech (AI & ML) student with hands-on experience in Python, data analysis, and machine learning, seeking an AI/ML or Data Analytics internship.

EDUCATION

B.Tech (Artificial Intelligence & Machine Learning) Sanjivani University | 2nd Year | **CGPA: 8.55** | Expected 2027(Up to 3rd Semester)

Diploma in Computer Technology

Amrutvahini polytechnic sangamner | Aggregate: 83.89% | Completed: 2024

SSC (10th Standard)

Dnyanganga Vidyani Ketan, Manchi Hill | 90.20% |

TECHNICAL SKILLS

- Languages: Python, Java ,SQL
- ML & Data: NumPy, Pandas, TensorFlow, Keras ,Scikit-learn, TensorFlow, PyTorch
- ML Concepts: Classification, CNNs, Model Evaluation
- Web: HTML, CSS, JavaScript, Django
- Version Control :Git, GitHub

METHODOLOGIES

- Agile, DevOps, Design Thinking

TRANING & CERTIFICATION

Full Stack Web Development (Django) – Sumago Infotech | 2025

- Built and deployed web applications using Python, Django, and MySQL

Machine Learning (Intern) – Congnifyz Technologies |2026

- Demonstrating String analytical , Communication, and problem solving

PROJECTS

AI-Based Fruit Disease Detection Chatbot

Built an ML-based image classification chatbot to detect fruit diseases from images

AI-Driven Crop Advisory System:

Developed a predictive agricultural model with 94% accuracy, integrating crop disease prediction and live weather and Mandi APIs for real-time insights.

ACHIEVEMENTS

- Certificate of Achievement in Frontend Development Using AI
- 3rd Place Winner: 'Code Golf' Coding Competition
- Completed IBM- certified Devops , Agile &Design Thinking course
